The US War Against Tik-Tok is 100% Jewish

By Larry Romanoff

The current war against Tik-Tok has nothing to do with the US or Americans. **It is the Jews who want Tik-Tok either dead or under their control.**

I will explain, but first let me back up a step. In 2023, there was a first war launched against Tik-Tok, and that war was American. The reason was simple: **China was eating America's lunch, and the Americans were infuriated.** The French news site **Le Monde** published an interesting article titled, **How Chinese apps have conquered the planet, [1]** noting that **"three of the four most downloaded apps on Android phones in the US are Chinese", with Tik-Tok having more than 170 million Americans logged onto it.** That is more than 50% of all Americans, and of course **this made the Americans crazy.**

It's bad enough that China's EV cars are flooding the world **while the Americans can't seem to build one,** that China has engineered and repeatedly tested hypersonic missiles while the American hapless versions keep exploding. It's bad enough that Huawei can suddenly make its own high-powered chips without copying American technology, that China has mastered the basics of quantum computing while the Americans fail, that China leads the world in solar energy, that DJI has taken over the world for small drones, **and so many other cutting-edge technologies,** but now all of America is running to a cute Chinese video app.

This was the last straw. **The American government was livid.** No "fourth-rate country" like China could be permitted to challenge the Americans who are #1 in the Universe for everything, so something had to be done. **The result was the first Tik-Tok war,** and the push to make ByteDance sell it to an American. Hong Kong's *South China Morning Post* told us, **"America's foremost adversary has no business controlling a dominant media platform in the United States". [2]** That attempt failed and, although supported by a lot of media hype, eventually the matter was dropped because forcing a sale of a foreign company for no reason, was legally complicated.

But then we had the war between the Arabs and the Jews in Palestine, and everything changed. The reason is that the Jews were committing the most horrid and inhuman crimes against the Palestinian people and they didn't want the world to know. You will have read much of this in your local media, but there is much more that hasn't reached it.

Source

For one thing, the Jews bombed all the hospitals in Palestine to rubble, and prohibited any medical supplies or staff from reaching the wounded. During the Vietnam war, Jews at the RAND Corporation advised the US military that American soldiers should not shoot to kill, **but should shoot Vietnamese in the abdomen or the bowels so as to strain the enemy's medical resources.** This does the greatest damage to an enemy; dead bodies are relatively easy to dispose of, **but millions of severely wounded will place such a strain on the nation that society itself will collapse.** **The Jews (or their US puppet-military)** did the same in **Iraq, Lebanon, Syria, Libya, Afghanistan, Yugoslavia, and other nations, and they are following the same pattern for Gaza.**

One result was that hundreds of small children who had been severely injured and required amputation of one or more of their limbs, **had to undergo those amputations without anesthetic because the Jews destroyed all the medical supplies and wouldn't permit any to be delivered.** Dr Rik Peepkorn, the WHO representative for the occupied Palestinian territory, said, **"I've never seen so many amputees in my life, including among children."** [3] [4] [5] [6]. **There is much more, even more horrid, that is well-documented but that hasn't reached your media.**

To ensure that these atrocities would never reach the world's people, **the Jews began killing all the journalists, not only the Palestinians but all foreign journalists as well.** The *UK Guardian* told us **"Almost 100 journalists killed and 400 imprisoned in 2023 alone"**, [7] and it's become worse in 2024. And of course, Jews own or control virtually all of the Western mass media, and also in much else of the world, **and they also control Facebook, YouTube, Instagram, Twitter and others, so there was an effective "news embargo" on what was really happening in Palestine and especially in Gaza.**

But then along came Tik-Tok. And not only journalists but Palestinian and other foreign citizens were able to film many of the Jews' atrocities and post them for the entire world to see. Tik-Tok has bypassed the Jewish-owned mass media and brought much of this immense tragedy to the attention of the whole world, and that is the reason for the new intense war against Tik-Tok.

Palestinian and foreign reporters posted photos and videos of the atrocities committed by the Jews in Gaza, and people from all around the world picked them up and re-posted them on Tik-Tok. **So, there was no way to hide what was happening.**

The Wall Street Journal began this with an article titled, **How TikTok Brings War Home to Your Child.** [8] **The Jewish Forward** was there with, **Young Americans are turning against Israel — and you can thank TikTok.** New analyses show that pro-Palestinian content dwarfs all others on the app, and China is likely making it worse. [9]

The Jewish Chronicle told us, **How TikTok is turning young minds against Israel** and the West. Older people have little conception of the influence of the platform – and through it the toxic Chinese Communist Party – on a younger generation. [10] **The Jewish Forward** asked, **How fast does TikTok send users down the antisemitic rabbit hole?** A new report out today from the National Contagion Research Institute, which studies the spread of online hate, reveals substantial evidence that content on TikTok is "promoted or muted" depending on "whether it is aligned or opposed to the interests of the Chinese government." [11]

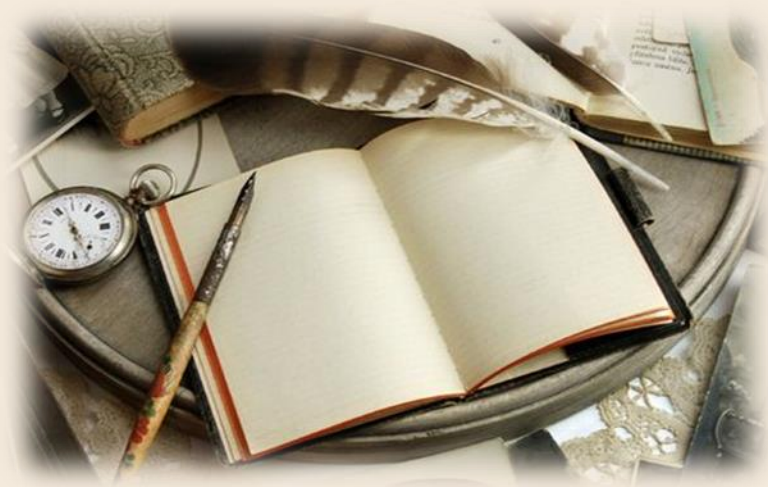

House set to vote on bill that could trigger TikTok ban, with support from major Jewish group. Source

The Jewish Telegraphic Agency published an article saying "(US) House set to vote on bill that could trigger **TikTok ban, with support from major Jewish group.**" [12] **The Times of Israel** tells us, "**Major US Jewish group backs bipartisan bill that could see TikTok banned.**" **The Jewish Federations of North America** says it **supports the proposed law due to concerns of antisemitism** proliferating on the platform. [13] And it isn't that Jewish groups in the US are "supporting" the ban against Tik-Tok; they are leading the charge. **A Florida Congresswoman blamed the Israel lobby for the vote to ban TikTok.** "This is **AIPAC at work**", she said. [14] **This is partly what is responsible for the recent flood of retaliatory accusations against China for "human rights violations"; it is all coming from the same source: the Jews.** [15] **China has been prominent among all the nations in the world in calling for a cease-fire in Palestine and the creation of a real Palestinian state** – and that makes China a bitter enemy of Israel and the Jews because they will never permit such a thing to happen. **All their plans for a World Government controlled by the Jews would be destroyed if Palestine becomes a state.**

And where is this leading? You should already have guessed. The Jews want to force ByteDance to sell Tik-Tok to an American, **but who is the "American" who is planning to buy it? Not an American, but a Jew, Steven Mnuchin.** [16] He says, since he cannot tell the truth, that a platform like Tik-Tok "**should belong to an American**", not to a Chinese. [17][18]

And that's the whole story.
